

## Common Market for Eastern and Southern Africa (COMESA)

### Macroeconomic Indicators

#### News Release - Interim HCPI-COMESA in July 2012

##### COMESA region year - on - year inflation stood at 13.0% in July 2012

#### INSIDE THIS ISSUE

- 1 Interim HCPI - COMESA (Y-O-Y) inflation rates.
- 2 Interim HCPI - COMESA Divisions & COMESA Member States HCPIs year on year inflation rates.
- 3 Y-O-Y inflation rates (graphics for Member States, HCPI - COMESA and Divisions).
- 4 Y-O-Y inflation rates for HCPI - COMESA, Divisions, Member States profiles and time series data.
- 5 HCPI explanatory notes.

The year on year inflation rate (*annual percentage change*) in the COMESA region as measured by the Interim Harmonized Consumer Price Index (HCPI-COMESA) stood at **13.0%** for the month of **July 2012** gaining **0.1 percentage points** on the **June 2012** rate of **12.9%**.

The month on month inflation rate in **July 2012** stood at **1.6%**, it was unchanged compared to the **June 2012** rate of **1.6%**.

The Interim HCPI-COMESA comprises of ten divisions of expenditure. These divisions registered the following average price changes during the month of **July 2012** compared with **July 2011**.

Food and Non alcoholic Beverages (**+13.9%**); Alcoholic Beverages and Tobacco (**+14.1%**); Clothing and Footwear (**+13.7%**); Housing, Water, Electricity, Gas and Other Fuels (**+8.2%**); Furnishings, Household Equipment and Routine Household Maintenance (**+11.4%**); Transport (**+12.8%**); Communication (**+3.5%**); Recreation and Culture (**+14.4%**); Restaurants and Hotels (**+6.3%**); and Miscellaneous goods and Services (**+11.3%**).

#### COMESA Member States Y-O-Y inflation rates (%) as at July 2012

The participating Member States that contribute to the Interim HCPI-COMESA registered the following rates of total inflation in **July 2012** compared to **July 2011**.

**Burundi**(+24.9%), **Democratic Republic of Congo**(+13.7%), **Egypt** (+7.6%), **Ethiopia** (+12.4%), **Kenya** (+7.2%), **Madagascar** (+7.7%), **Malawi**(+17.0%), **Mauritius**(+4.1%), **Rwanda**(+5.6%), **Seychelles**(+7.8%), **Sudan**(+39.6%), **Swaziland**(+9.8%), **Uganda**(+13.8%), **Zambia**(+2.4%) and **Zimbabwe**(+2.6%).

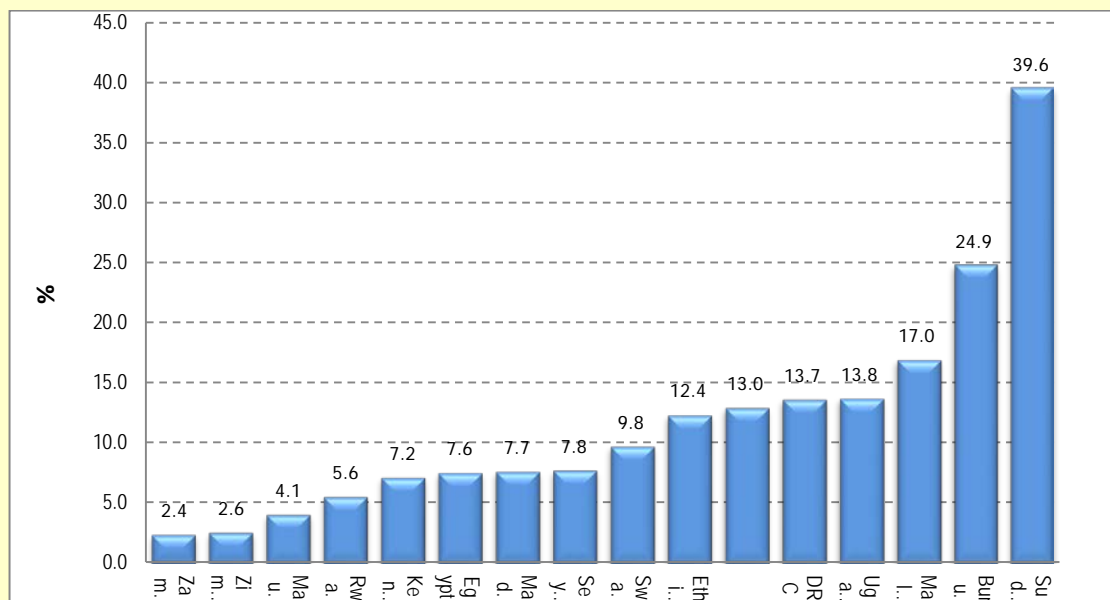

---

Sudan recorded the highest year on year inflation rate of **(+39.6%)** in July 2012 whilst Zambia recorded the lowest rate of **(+2.4%)**

---

**Figure 1:**

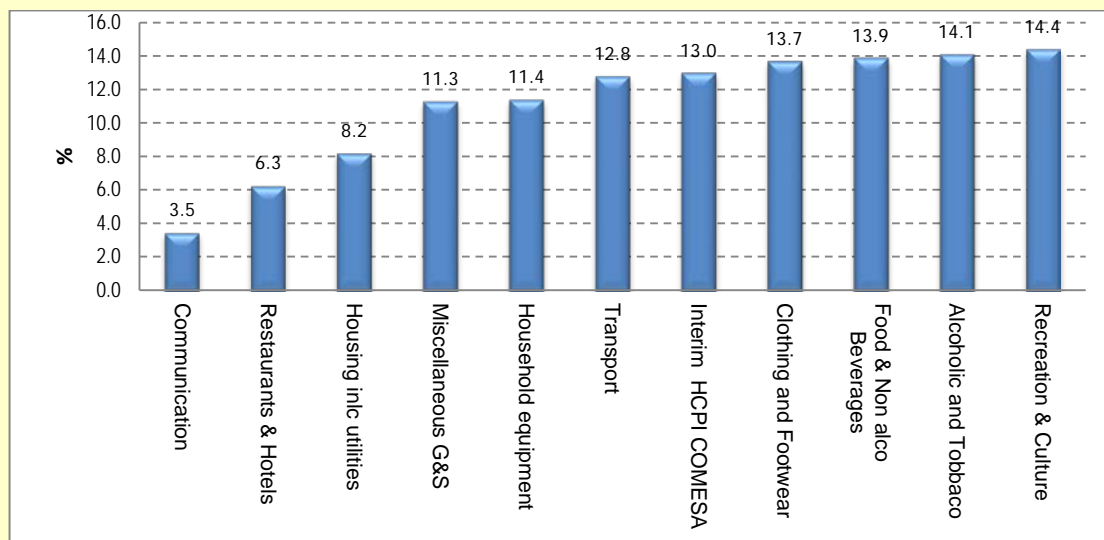

Year on year inflation rates (%) in the COMESA Region and in the individual Member States as at July 2012

*Sudan recorded the highest year on year inflation rate of (+39.6%) in July 2012 whilst Zambia recorded the lowest rate of (+2.4%)*

**Figure 2:**

Average Interim HCPI-COMESA and Division year on year inflation rates as at July 2012

*The Recreation and Culture division registered the highest rate of year on year inflation of (+14.4%) whilst the Communication division recorded the smallest average change of (+3.5%) in July 2012.*

<b>Interim HCPI - COMESA</b>	<b>100.00</b>	<b>11.9</b>	<b>13.0</b>	<b>11.9</b>	<b>12.3</b>	<b>11.6</b>	<b>12.9</b>	<b>13.0</b>					

COMESA region year on year inflation stood at **13.0% in July 2012** whilst month on month inflation stood at **1.6%** during the same month.

The HCPIs are in principle open for revision, in particular when improved data become available; hence they may change after the results are published.

Egypt has the largest country weight of **53.08%** compared with **0.74%** for Swaziland. Seychelles and Burundi have no Household Final Monetary Consumption Expenditure (HFMCCE) data from the 2005 International Comparison Program (ICP) round. Their weights will be calculated once new data from the 2011 ICP becomes available.

Indices for the COMESA region are obtained by multiplying the country weights by the corresponding country indices and dividing the total product by the sum of weights (100) [column wise]. This applies to all Divisions up to all Items Level (Interim HCPI-COMESA).

**Figure 3:**

Interim HCPI-COMESA month on month inflation rates, 2011-2012

---

In July 2012 month on month inflation in the COMESA region stood at 1.6%, it was unchanged compared to the 1.6% recorded for the month of June 2012. Average month on month inflation rates from May 2011 to June 2012 are shown in figure 3 above.

---

---

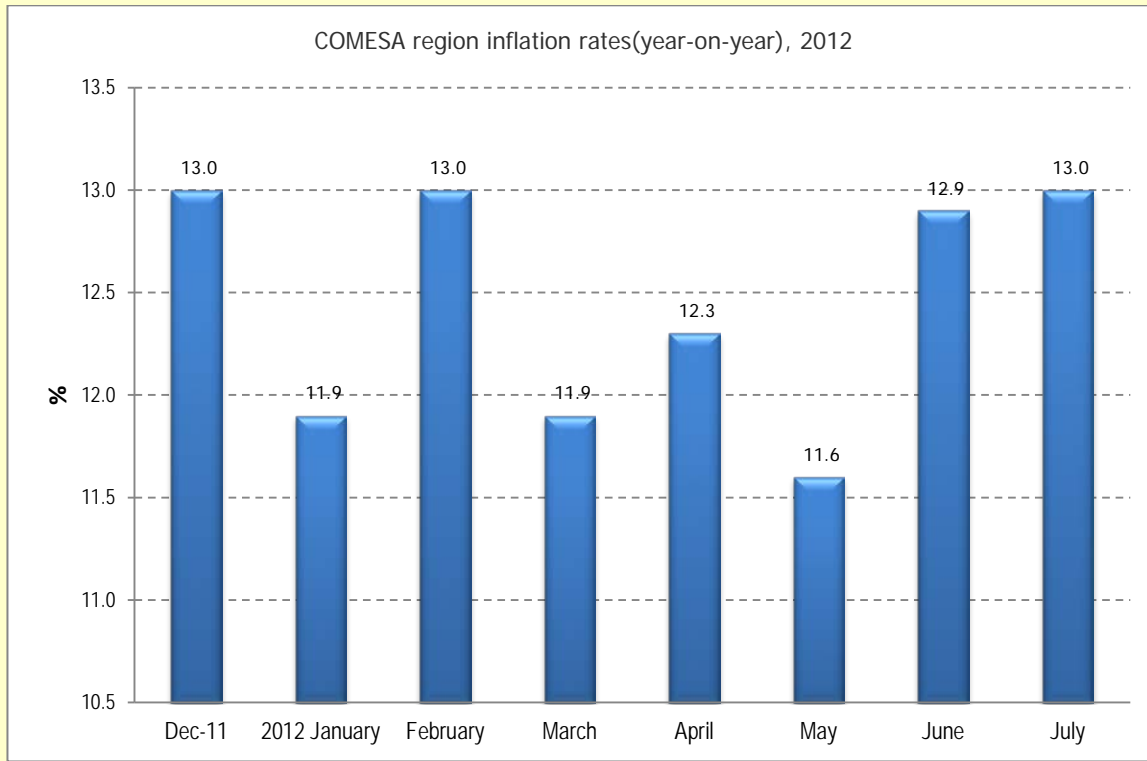

The COMESA region month on month inflation rate ranged from -0.2% to 2.4% in 2011. Month on month inflation peaked at 2.4% in March 2011 and slowed down to -0.2% in October 2011.

---

**Figure 4:**

Interim HCPI-COMESA year on year inflation rates, 2012

---

The COMESA region year on year inflation rate stood at 13.0% in July 2012 gaining 0.1 percentage points on the June rate of 12.9%.

---

The annual average HCPI-COMESA stood at 107.69 points in 2011. HCPI-COMESA stood at 100.00 points in December 2010 and increased to 113.00 in December 2011. This represents a year on year increase of 13.0%.

---

### Measures of inflation

The *annual rate* measures the price change between a particular month and the same month one year earlier. This measure is responsive to recent changes in price levels but it can also be influenced by one-off effects in either of the two end months.

It is intended to publish annual inflation rates and 12 month average inflation rates when the first 12 and 24 months' HCPIs, respectively, are available.

The *monthly rate* measures the price change between the two latest months. Although up to date, it can be affected by seasonal and other short term effects.

### HCPIs designed for international comparison

The Harmonized Consumer Price Indices (HCPIs) are produced by the COMESA Secretariat in collaboration with the Member States with the aim of measuring inflation in similar ways and can therefore be compared directly with each other without the need for making special adjustments. The HCPIs benefit from incorporating many of the international developments in consumer price index theory and methods in recent years. Further improvements to the HCPI methods are expected in the coming years.

The HCPIs may differ from national consumer price indices which are sometimes designed for different purposes. The HCPIs are designed as a macroeconomic measure of monetary inflation, whilst some national CPIs have other purposes such as cost of living measurement, which may be more suitable for uses such as wage indexation.

Further information on HCPI methodology can be found from COMSTAT, one of the COMESA Secretariat websites (<http://comstat.comesa.int>) under HCPI Resources.

The Member States HCPIs are compiled by the Member States themselves, using harmonized methods laid down in COMESA Regulations. The aggregated COMESA figures are compiled by the COMESA Secretariat. An aggregated HCPI is known as an "HCPI-COMESA". The aggregates are calculated as weighted averages of the national HCPIs, using as weights each country's total household expenditure in the national accounts converted to a common currency using purchasing power parities supplied by the African Development Bank and the World Bank. The country weights are shown in Table 1.

**Future release dates;**

Scheduled publication dates for the forth coming months are;

Interim HCPI for	Publication date by COMESA Secretariat
August 2012	5 October 2012
September 2012	7 October 2012
October 2012	7 November 2012

**Persons to contact at COMESA Secretariat; for further information on the HCPI:**

### Acknowledgements

The African Development Bank, through the Statistical Capacity Building (SCB) Program, and the European Union through the Regional Integration Support Program (RISP) have been providing financial support for the development of the HCPI in the COMESA Region. The contribution of all national statistical offices in the COMESA Region is also acknowledged.
