Company Profile

Sturrock and Robson, based in the Netherlands, is a privately owned industrial management group that manages a diverse portfolio of niche industrial companies. Founded in 1951, the Group has developed into a successful international organisation serving a broad range of industrial markets. The Group operates & manages enterprises in Africa, the UK, Australia & the USA, and employs over 750 people worldwide.

Sturrock & Robson Moçambique was established to provide a local presence for the Group to handle & support existing business and create & support new opportunities. The company is a partnership between Sturrock and Robson Africa & Integrated Logistical Solutions, a Mozambican company that was created to respond to the demand for comprehensive logistical solutions for the Coal and Oil & Gas Industries in Mozambique.

Sturrock & Robson Moçambique currently offers the following portfolio of products & services:

- The sourcing & support of premier health & safety solutions. Sturrock and Robson is the exclusive Sub-Saharan Africa distributor for Honeywell Safety Products, the international leader in the development, design & manufacture of personal protective equipment (PPE). We also offer PPE inventory & demand management via our propriety software, which is particularly ideal for remote sites
- The provision & support of comprehensive & reliable fuel measurement & management systems & allied services to major suppliers & users across all petroleum intensive business sectors. With the high costs of fuels & lubricants, accurate & traceable management information can assist stakeholders to increase efficiencies
- The supply of magnetite for Dense Medium Separation (DMS) applications in the Coal Mining industry. In addition to supplying high quality magnetite via a robust & efficient logistical network, we also provide a metallurgical service to the Coal Mining Industry to assist in the efficient operation & maintenance of their DMS circuits
- The supply & support of WABCO air brake components. We offer the fleet-operator, trailer-builder and independent distributor the very best in technical support, information and training to ensure that the products provide the ultimate in safety, reliability and braking efficiency with a low cost of ownership

Sturrock & Robson Moçambique's vision is to become the leading supplier of industrial products & services in Mozambique by adding value to our customers via our global expertise, resources & contacts and our local presence & partners. Sturrock & Robson Moçambique is committed to offering opportunities to the local population for employment & the acquisition of skills.

Sturrock & Robson Moçambique has a distribution centre for industrial products in Matola and a storage site for magnetite in Tete.
