Mozambique Donor Atlas 2008

The ODAmoz Donor Atlas for Mozambique 2008 provides the reader with a unique possibility to see trends in the geographical distribution of Donor/ UN Agency Aid Flows to Mozambique for 2005 - 2011, while at the same time allowing participating Donors/ UN Agencies the possibility of looking into the complementarities of their aid.

The ODAmoz Donor Atlas for Mozambique 2008 presents charts and tables of total and individual geographic disbursements by OECD DAC Sectors for the years 2005 until 2007 and a forecast for the years 2008 until 2011 per participating Donor/ UN Agency (see Donor/ UN Agencies Profiles).

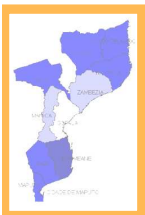

With 23 Donors and 11 UN Agencies, participating in ODAmoz and the Government of Mozambique starting to develop with Donors a Joint Development Strategy, the Donor Atlas for Mozambique 2008 intends to provide a hand on approach to facilitate coordination and harmonization of all involved.

The data reported in ODAmoz is based on the data inputted online by the individual Donors and UN Agencies participating. Completeness and exactness therefore is subject to own judgment of those reporting, and therefore might not always represent the whole reality.

Many thanks goes to the Government of Mozambique for supporting the Donor Atlas and to the Norwegian Embassy to Mozambique for financing this initiative. Furthermore many thanks to the Focal Persons of all participating Donors and UN Agencies that regularly update on a quarterly basis the financial data of over 1400 projects within ODAmoz, that are the basis of this study.

**Participating Donors in ODAmoz 2008:*

Donors: ADB, Austria, Belgium, Canada, Denmark, EC, Finland, Flanders, France, Germany, Ireland, Italy, Japan, MCC, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, UK, USAID, World Bank; UN Agencies: FAO, Global Fund, UNDP, UNESCO, UNFPA, UNHABITAT, UNHCR, UNICEF, UNIDO, WFP, WHO

Mozambique Donor Atlas 2008

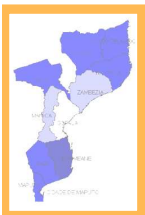

Method

Following methodology was used:

- OECD DAC Sector codification of projects was provided by focal points of individual Donors/ UN Agencies participating in ODAmoz and represents the unique sector classification based on international OECD/DAC standards.
- Provincial classification of projects was also provided by Donors/ UN Agencies through ODAmoz. However, the Data Base so far does not differentiate financially a project that is implemented in multiple provinces. As a consequence, project aid flows were divided equally between provinces mentioned.
- Forecast Data for 2008 – 2011 according to MTEF was introduced beginning of 2007 into ODAmoz. Data from 2008 onwards has to be taken as preliminary and not complete with some donors still pending on the input side.
- The currency used in the charts and tables of this ODAmoz Donor Atlas 2008 is US \$.

- The Exchange rates to the US\$ used in ODAmoz are the average exchange rates used by the OE 2008 exercise. They do not represent the current reality of exchange rates nor do they properly reflect annual variations during the years. In future ODAmoz will need to be adapted in order to accommodate annual exchange rate averages based on the OECD/DAC.
- UN Agency Aid Flow information has been set separately from Donor Aid Flow information in this study as double counting cannot so far be discarded. This is due to the fact that UN Agencies act both as Donor and implementing agency, receiving funds from a large variety of Donors already in ODAmoz.
