COMPANY PROFILE

Description

Ping Services is a 100% Mozambican capital company operating in the sectors of Information Technology, Electronics and as a Service Provider in several areas in the Technology sector.

It started its activities in April 2010 as Sole Proprietorship Company focusing on Service Provision (IT Helpdesk, Supply of Electronic and Computer equipment, Computer Consumables and Equipment Rental - Laptops and audio visual equipment).

With the company's growth, late in 2012 PING Services became a Private Limited Company with two partners, becoming PING Services Ltd.

Objectives

1. Create job opportunities;
2. Expand the company's presence to the entire country;
3. Become one of the 100 top companies in Africa.

From the date of its inception until September 2014, the company achieved 30% of its objectives, with a forecast of achieving 80% by 2020.

Mission

Contribute to achieving and maintaining the quality of life of our customers and employees, consolidate the company as one of the industry leaders providing our collaborators with professional growth opportunities while encouraging qualifications and development. Become a key-player in promoting development of the community through socio-environmental work.

Vision

Recognition by our customers for efficiency, confidentiality and reference in the market, demonstrating our unique service, flexibility, quality and reliability, creating jobs, internships and providing a healthy and competitive environment.

Values

Respect for our customers, suppliers and employees. Commitment to our goals, mission, vision, values and code of ethics. Trust based on cooperation and concern for the well-being of society. Productivity, responsibility, ethics, honesty, hard work and above all transparency are part of our business.
